Buea, Cameroon | Email: ngwadiland68@gmail.com | Phone: +237 672 344 814 | GitHub: github.com/Dylan21-svg

PROFESSIONAL SUMMARY

Lead Software Engineer and COO specializing in distributed backend systems, Python, FastAPI, and multi-tenant architectures.

CORE COMPETENCIES

Languages: Python, TypeScript, SQL, Go (Basics) | Frameworks: FastAPI, Django, Flask, Next.js

Databases: PostgreSQL, TimescaleDB, MySQL, Redis Cache | Queues: Celery, RabbitMQ, Redis, WebSockets

DevOps: Docker, CI/CD Pipelines, Prometheus, Grafana, Linux/Nginx

PROFESSIONAL WORK EXPERIENCE

Lead Software Engineer & COO - SAMITECH Corporation (Sep 2023 - Present)

- Engineered decoupled async event pipelines and multi-tenant DB architecture using Python, FastAPI & Docker.
- Reduced processing latency by >60% and unlocked horizontal scaling under high concurrent load.
- Established standardized DevOps CI/CD pipelines and restructured developer sprint workflows.

Full Stack Backend Developer - NEXORA / Freelance (Aug 2024 - Oct 2024)

- Designed and deployed modular backend architectures and standardized REST APIs for 5+ client applications.

Software Engineer Intern - Revival Company Ltd. (Jun 2025 - Nov 2025)

- Standardized internal API integration layers and authored automated unit/integration test suites.

EDUCATION

Higher National Diploma in Software Engineering - College of Technology / University of Buea (2024 - 2026)

Bachelor of Science in Computer Science - College of Technology / University of Buea (2022 - 2026)
